PROFESSIONAL SUMMARY

Aspiring cybersecurity professional with a strong academic foundation and hands-on experience in ethical hacking and network security. Ranked top 1% on TryHackMe, demonstrating practical skills and dedication to continuous learning in any position.

SKILLS

Network Security | Ethical Hacking | Vulnerability Assessment |
Incident Response | Linux/Unix Systems | Python Programming |
Wireshark | Metasploit

EXPERIENCE

PARTS MANAGER/IT HELPDESK

January 2023 - Present

Courage Kia, Gastonia NC

- Tested and monitored computers and tablets, assured networking connectivity, and assisted with other employee's with troubleshooting hardware and software issues.
- Documented processes and procedures
- Communicated with other employee's and assisted with solving problems
- Ensured security camera's and associated hardware and software was up and running for a up-time of 99% for 2024, reviewed and contributed to local authorities for evidence from footage caught from cameras.

EDUCATION

Bachelor of Science in Cybersecurity (B.S.)

November 2025

Full Sail University, FL USA

Associate of Science in Information Technologies

October 2024

Full Sail University, FL USA

CERTIFICATIONS & ACHIEVEMENTS

- Google Cybersecurity Certification.
- Microsoft Cybersecurity Analyst Certification.
- CompTIA Network+ (In Progress).
- CompTIA Security+ (In Progress).
- TryHackMe SAL1 (In Progress).
- Ranked in top 1% of users on TryHackMe platform.
- Completed 350+ rooms and challenges with a 350+ day streak on TryHackMe.

PROJECTS

Class Labs/TryHackMe

August 2023 - Present

- Conducted comprehensive vulnerability assessment of simulated corporate network using Nmap and Nessus.
- Identified and documented critical vulnerabilities, proposing mitigation strategies.

TryHackMe

September 2024 - Present

- Completed comprehensive SOC Level 1 learning path on TryHackMe.
- Gained practical experience in security operations, including threat detection, incident response, and log analysis.
- Developed skills in using essential SOC tools such as SIEM systems, intrusion detection/prevention systems, and endpoint detection and response tools.
- Applied knowledge to investigate and mitigate simulated cyber incidents in a realistic SOC environment.

RELEVANT COURSEWORK

Network Security | Cryptography | Ethical Hacking | Digital Forensics | Malware Analysis | Security Information and Event Management (SIEM).

Avid follower of Darknet Diaries podcast, gaining insights into real-world cybersecurity incidents and investigations.
Daily listener of CyberWire Daily Podcast, staying informed on latest cybersecurity news and trends.

LEADERSHIP

- Multi Task and Communicate with customers and other employee's to maintain customer needs are met and customer satisfaction remains high.
- Meet with wholesale customers to maintain customers needs are being met and discuss business planning to ensure problems are documented and problems are solved in a timely manner.
- Collaborate and communicate with employees to ensure business requirements are met. Reporting customer issues to upper management.
